Don Halloran - President
Southcross Custom Fabrication
4634 South Presa Street
San Antonio, TX 78223

GLORY LTD., a pioneer in the development and manufacture of money handling machines and systems, purchased safe assemblies from Southcross Custom Fabrication for about 10 years until 2014. The final assemblies integrated a Teller Cash Recycler (TCR) component.

The TCR is a sophisticated product that requires high quality construction and close tolerances in the manufacturer of the safe assembly. Southcross Custom Fabrication responded to the high quality requirements of GLORY and kept providing excellent products. In addition, as KAIZEN mind penetrates the whole company of Southcross Custom Fabrication, Southcross Custom Fabrication provided design change proposals for cost reduction and flexible shipments to adapt to demand fluctuations. Southcross Custom Fabrication was an excellent partner that supported the US businesses of Glory LTD.

Although Glory currently has no commercial transactions with Southcross Custom Fabrication due to Glory final assembly process of TCR shifted from USA to Asia, Glory recommends Southcross Custom Fabrication as reliable contract manufacturing service provider.
